

Thank you for your interest in fundraising with Pit Stop Popcorn. We are grateful for the opportunity to partner with local schools, teams, and other nonprofits to help them achieve their goals while sharing our handcrafted popcorn with the community.

Pit Stop Popcorn is the area's first and only all-popcorn food truck. We serve a variety of flavors of popcorn and kettle corn out of our fully restored 1964 delivery truck. We opened in late September of 2021 after the restoration of our truck was complete. Our mobile kitchen is inspected and licensed by the health departments of Broome and Tioga counties.

Our fundraising program is unique as it allows for flexibility for different organizations. The fundraising organizer sets the selling price for our 15-cup bags of theater style butter popcorn and sweet/salty kettle corn. Sellers can then take orders at that price for a period determined by the fundraiser organizer using our pre-designed customized order forms. Once the selling period is complete and sellers have collected money from all buyers, the organizer then submits a total order to us at wholesale pricing. We produce your order and have it ready for pickup or delivery within two weeks. At our recommended selling price of \$8-12 dollars per bag, your organization can profit over 60% of total revenue collected through sales! There are no startup fees, and you only pay for what you've already sold-nothing more!

If you think your nonprofit can benefit from our fundraising program, please contact us with information about your organization. We will be happy to assist you in getting started.

If you have any questions, please feel free to reach out at any time at the contact info listed below. We look forward to working with you!
